

Directions To Salisbury Airport

Select Download Format:

International and National Geographical Commission (IGN) has been established to provide a platform for the exchange of information and data on geographical names. The Commission is composed of representatives from various countries and is responsible for the standardization and harmonization of geographical names. The Commission's work is essential for the development of a global system of geographical names, which is necessary for the effective use of geographical information systems (GIS) and other applications. The Commission's work is also essential for the development of a global system of geographical names, which is necessary for the effective use of geographical information systems (GIS) and other applications.
